

Career Services' Green Terror Job Connection

Career Services provides students and alumni access to jobs, internships and an Alumni Career Network via the Green Terror Job Connection (GTJC), our job and internship database. In addition to searching for opportunities, this resource allows students to sign up for on-campus interviews and network with alumni. Upcoming events are also posted here.

We recommend that faculty become familiar with this valuable resource and encourage students to take advantage of all that it has to offer. To familiarize yourself with the database, please follow these simple steps.

1. Go to: <http://www.collegecentral.com/mcdaniel>.
2. Click on the **Student** icon.
3. Click on the **Login at Student Central** link.
4. Enter the following information:
 - Your School: **McDaniel College**
 - Access ID: **faculty**
 - Password: **faculty**
5. Congratulations! You have now accessed GTJC. You are now able to view jobs and internships posted for McDaniel students as well as opportunities posted on the Jobs Central National Job Board.

To see who is in our **Alumni Career Network**, our database of volunteers willing to provide job and “real world” advice, follow these easy instructions:

1. Once logged on to GTJC (following the above steps), select the **Search for Mentors Link** from the “Career Mentoring Section” of the main page.
2. Enter **Alumni** for the password. Be sure to record this as you will need it each time you access the site.
3. Once you’ve accessed the database, you can search for mentors by: major, employer, state, etc.

The Alumni Career Network is another valuable resource available to all students/alumni who have accounts with GTJC. It is a great resource for students looking to build their professional network and to identify individuals for informational interviews.
